DETAILED ACTION

Claim Objections

Claims 5-25 are objected to under 37 CFR 1.75(c) as being in improper form because of multiple dependent claims. For instance, claim 5 depends on multiple dependent claim 3; claim 6 depends on multiple dependent claim 5. Claims 9-25 depend upon multiple dependent claims 5 and 6. See MPEP § 608.01(n). Accordingly, the claims 6-25 have not been further treated on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3, are rejected under 35 U.S.C. 102(b) as being anticipated by Kobayashi (US Pat. 6,480,067).

Regarding claim 1 figures 2, 3, 6 and 7 shows a line driver arrangement for driving a signal comprising: a digital amplifier (110), analog amplifier (112) having output coupled at summing nodes. The gain of the analog amplifier (112) is adjusted to match the gain of the digital amplifier (110) so that the overshoot at the output is minimized (Abstract, col. 2, lines 19-30, col. 4, lines 15-22, col. 6, lines 1-31). The analog and digital amplifiers are in different paths.

Allowable Subject Matter

Claims 2 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
